SIX MONTHS COMPULSORY CORE MODULE COURSE IN ENVIRONMENTAL STUDIES: FOR UNDERGRADUATES Teaching Methodologies

The Core Module Syllabus for Environmental Studies includes class room teaching and Field Work. The syllabus is divided into eight units covering 100 lectures. The first seven units will cover 70 lectures which are class room based to enhance knowledge skills and attitude to environment. Unit eight is based on field activities which will be covered in 30 lecture hours and would provide students first hand knowledge on various local environmental aspects. Field experience is one of the most effective learning tools for environmental concerns. This moves out of the scope of the text book mode of teaching into the realm of real learning in the field, where the teacher merely acts as a catalyst to interpret what the student observes or discovers in his/her own environment. Field studies are as essential as class work and form an irreplaceable synergistic tool in the entire learning process.

Course material provided by UGC for class room teaching and field activities be utilized.

The universities/colleges can also draw upon expertise of outside resource persons for teaching purposes.

Environmental Core Module shall be integrated into the teaching programmes of all undergraduate courses.

Dissertation

Course Objectives:

- 1. To provide comprehensive learning platform to students where they can enhance their employ ability skills/research skills and become job/research ready along with real corporate/field work/research 2. To enhance students' knowledge in implementing learned concepts.
- 3. To increase self-confidence of students and helps in finding their own proficiency. 4. To cultivate student's leadership, problem solving and self-learning abilities and responsibility to
- 5. To provide learners hands on practice within a real job situation.

Course Outline

1. Final Year Dissertation includes any one of either industrial Internship/field work project/Research Project representing the culmination of study towards the Master of Computer Science. Internship/Projects offer the opportunity to apply and extend material learned throughout the

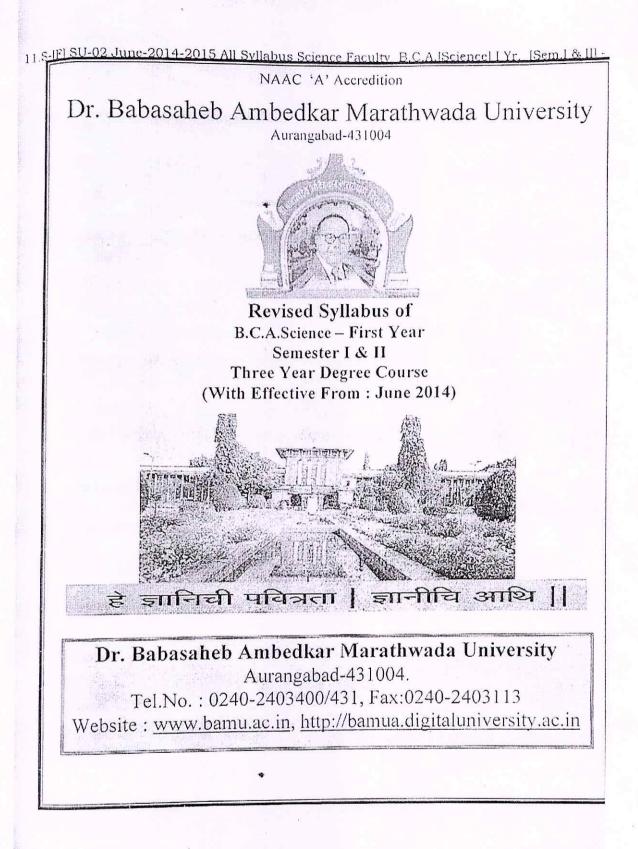

- program. Projects are undertaken individually or in small groups of not more than two students. 2. The projects undertaken span a diverse range of topics, including theoretical, simulation and experimental studies. The emphasis is necessarily on facilitating student learning in technical, project management and presentation spheres. This necessarily introduces the dimension of workload management into the program to enable completion of a large, relatively unstructured "assignment"
- Assessment will be done by means of three internal reviews and one external examination in the form 3.
- of presentation, submission of a dissertation, and a demonstration of work undertaken.
- 14 credits will be awarded to the dissertation work.
- 5.
- 2 credits for the seminar. Seminar topic must be relevant and as per the current trends in research and technology development.

Course Outcomes:

- 1. Capability to acquire and apply fundamental principles of Computers Science. 2. Become master in one's specialized technology.
- 3. Ability to communicate efficiently.
- 4. Capacity to be a multi-skilled Computer Science professional with good technical knowledge, management, leadership and entrepreneurship skills. 5. Ability to identify, formulate and model problems and find solution based on a systems approach.

Study Visit to Historical Khajana Well & Mordara

Academic Year 2018-19

With the permission of the Principal, Balbhim Arts, Science and Commerce College, Beed, one day study visit of students have been organized on 28th January 2019 jointly by the Department of Political Science and faculty of Social Sciences. Total 34 students were participated in the visit.

Khajana Well is constructed in the period of Nizam rule in Marathwada region. It is almost 6 kilometers away from the college campus near the Pali Village. The Khajana well is a big well and also known as Khajana Boudy.

It was constructed about 1582 A.D. by the then Jahagirdar of Beed. There are three inlets which feed the well and only one outlet. The source of water supply to the boudy has not yet traced. The cannels are building for irrigation purpose. It had irrigated over a thousand acres of land. Its water level remains the same at all time of year.

Dr. R.K.Kale, Dr. S.E.Ghumatkar, Prof. R.T.Khan, Prof. A.R.Armalkar, Dr. G.K.Wayase, Dr. A.Y Sarangkar sir were participated in the study visit and introduced to the students about water management of Khajana Boudy.

Department of Physics Study Tour Report

Hydroelectric Power Station Ujani Dam,

Bhimanagar, Solapur.

(Academic Year 2017-2018)

STUDY TOUR REPORT

On 20th January 2018 our department has organized study tour at Hydroelectric power Station Ujani Dam Bhimanagar, Solapur. 16 Students with 4 teachers were the part of this study tour. The hydroelectric power Station Engineer gave information regarding power station, how it works, and what amount of energy is generated through this power station.

Mr. B. T. Tate and Mr. B. B. Madavi explained Physics behind the hydroelectric power station, it covers the following points.

- 1. Energy generated through this project is non-conventional energy.
- 2. This energy is a clean source of energy.
- 3. Difference between conventionaland non-conventional energy sources.

Information Given by Project Engineer

This project was established in1994, it generates 12 thousand unit of electricity per hour which requires 1600 cusec of water. Water which is used for this hydroelectric power is again reversed in the dam. If dam is filled up to the capacity of100% then it works up to three to four month in a year.

Report on Infosys Visit

A educational trip was organized by Department of Zoology to Infosys Pune based at Hinjewadi from 14th December 2018 to 16th December 2018. Total of 27 students from B.Sc. I, II and III year visited Infosys. Head of the Department Dr. P. B. Rokade and Dr. Varsha Jaisingpure organized this visit for Department of zoology.

The trip was in collaboration with TPO Dr. Babasaheb Ambedkar Marathwada University, Aurangabad. On 14th December there was a complete tour of the Infosys campus and their various departments, buildings, research labs, meeting and presentation rooms and so on.

On 17th December in the morning there was a brief presentation in the Meeting hall about BPO, their working structure, their interview pattern, the material to study, job structure and all. In the afternoon session there were presentations on body language, presentation skills, English fluency and stage courage.

After a stay on 17th December at their in campus hotel, we were back in the morning for Beed. At 3pm we were at Beed and after dropping each and every student safely to their home the visit was over.

The basic idea of this tour was to introduce students to corporate culture and prepare themselves for the job opportunities available there in Infosys after graduation.

Prof. Pramod B. Rokade Professor and Head Department of Zoology Balbhim College, Beed:

Tour Report

Department of Zoology

Department of Zoology organized a one day tour to Fish Breeding Farm based at Kedapuri Camp, Majaogoan on 9th January 2020. The idea behind this trip was to make students aware of fish farming and its techniques so after graduation instead of searching jobs here and there, they can start their own business.

Fish production is carried out at Kesapuri camp, artificial fish breeding is the main purpose of this camp. Artificial breeding environment is prepared in breeding tank where brooders are introduced and they get a false ides of rainy season and they breed and give eggs which hatch into larvae or fry and fingerlings.

Brooders (fish which are going to lay eggs and sperms) are kept isolated in separate tank and are used only while breeding, after breeding they are back to their ponds. Fish fry and fingerling are also kept in separate nursery ponds, rearing ponds and stocking ponds.

The fishes are injected with ovaprim after which they give eggs within two to three hours. Ovaprim injection is prepared from synthetic hormones which force the fish to give eggs.

The next technique of breeding is to prepare the injection in the camp by collecting pituitary gland of other fishes and injecting it to the brooders.

The fish crop is purchased by the local fisherman and sold in market at their price. Also the fry and fingerlings are sold to other fish farm owners and people who culture fishes in their tanks and farms.

In the evening we were back at the college gate where parents were eagerly waiting for their children.

Our Head of the Faculty of Commerce in this regard took up initiative for arranging study tour accordingly all the faculty members took into account his instructions.

During the study tour we visited specified places as per the planned schedule of tour. At the beginning in morning at the college campus all the concern faculty members assembled with students. We scheduled this study tour in the month of winter season so that immense cold was there and students were completely over the moon for this study tour. At morning 9:00 am we had preparing for moving out from the campus by private fixed bus of local travel agency.

Moreover, as per the schedule and customary respected Principal has authorized dignitary for sending to the students and by his auspicious hand see off to us from the college campus. We moved out on 9: am in morning and reached out there on 6: pm evening at Shegoan. Once get off from the bus we were looking for some rooms and lodge to stay and there we found temples charity rooms and according to the strength of the students we booked the rooms.

Over and above, we carried on our tour to the next level, where we were determined firstly to take worship of deity Gajanan Maharaj and then onwards we took some refreshments. Meanwhile, students took permission for roaming throughout the temple to make over the place thoroughly. Staff members also took off to keep in view some scope for exploring .We asked the passersby, locals in respect of educational study tour.
