(Project)

Paper No. 23

Course Title: Writing Major Research Project

Credit: 06

Periods: 60

Marks:

Introduction: The aim of the course is to give the students an opportunity to perform a research project within the field of biomedicine under supervision according to an individual study plan, to summarize the results in a research report and present the results of the project.

Course Outcomes:

At the end of course, the students will learn

- Research project according to an individual study plan,
- To show independence, critical and creative thinking,
- Document results by writing a research report,
- Present and discuss the research results with colleagues and senior researchers,
- New scientific questions that came up during project performance.
- Professional attitude regarding time planning, collaboration, and the link between theoretical and practical knowledge

General Rules and Regulation for writing Major Research Project (MRP)

1. MRP is an individual work under supervision: Reading of literature as recommended by the supervisor and the student's own judgment will be the basis for writing Major research project. The project should be written in not less than 100 pages.

2. The literature for writing Major research project is open and students can finalize the topic of project in consultation with research supervisor. The department will allot students to research supervisors in its meeting.
3. The examination consists of a Major research report, a written abstract and a project presentation. The examiner sets the grade after consultation with the supervisor and the examining teacher based on the work performance, the research report and the research presentation.
4. Course evaluation will be carried out in accordance with the guidelines established by Dr. Babasaheb Ambedkar Marathwada University, Aurangabad
